

PERSONALIZED LIFECYCLE MANAGEMENT

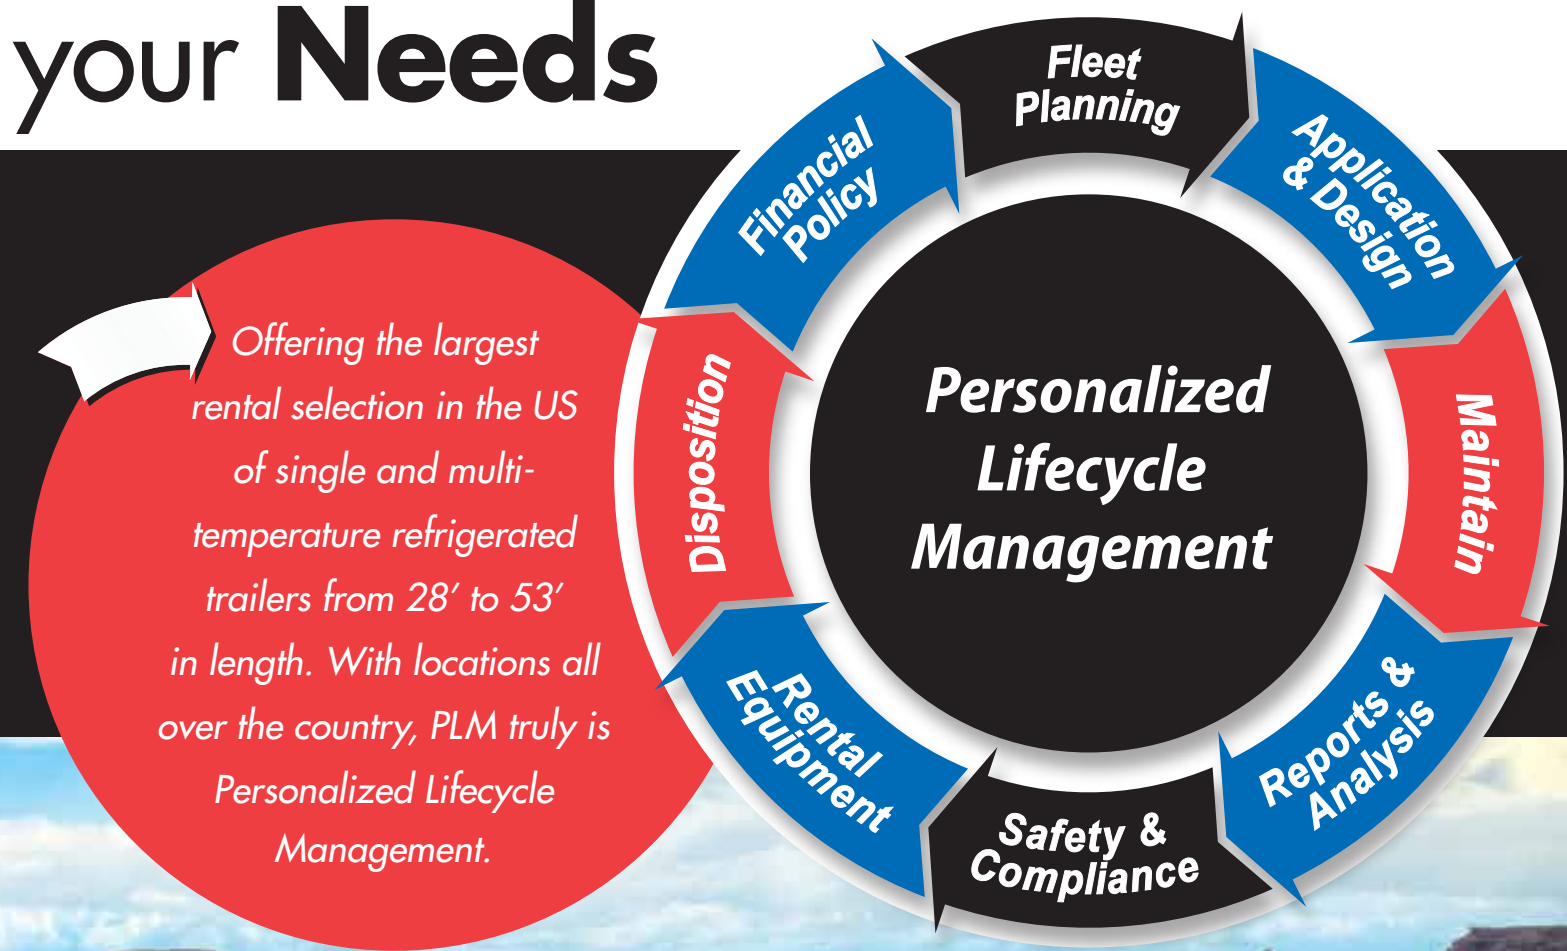

PLM Trailer Leasing is
the **Industry Leader**
in Refrigerated Fleet
Management Solutions.

Solutions Customized for your Needs

PLM Trailer Leasing is... the only nationwide company dedicated exclusively to the leasing, rental, maintenance and fleet management of refrigerated trailers. Our unique position allows us to focus on creating flexible and customer-specific refrigerated solutions to reduce costs and risk from fleet operations.

As industry experts, PLM takes a consultative approach with customers, openly sharing our experience and knowledge through modeling and data analysis as well as on-site and in-trailer performance based assessments.

PLM provides innovative fleet solutions and customized term lease options that reduce our customers' refrigerated trailer lifecycle cost and increase key performance measures; all of which means increased business profitability and loyal customers.

Fleet Planning

- Trailer lifecycle management
- Data-driven analysis
- Residual risk strategy
- Consumption-based modeling for optimal asset life

Application & Design

- Optimizing trailer design
- Lower lifecycle maintenance
- Damage resistant specifications
- Maximizing loading capabilities

Maintain

- Trailer and refrigerated unit care and repair
- Emergency breakdown service
- Disciplined preventative maintenance plan
- Onsite mobile service – we come to you

Reports & Analysis

- Web-based reporting capabilities
- Asset lifecycle cost analysis
- Benchmarking by segment and equipment type
- Temperature reporting with real time alerts and push notifications

Safety & Compliance

- Food Safety Modernization Act compliance
- SmartWay® EPA certified equipment
- Electronic data retention
- ColdLink® temperature documentation

Rental Equipment

- Locations throughout US
- 28' to 53' trailer availability
- Single-temp, multi-temp and electric-only
- Flexible rental solutions - as little as one day

Disposition

- Nationwide remarketing program
- End of term solutions
- Eliminate disposal time and cost
- PLM pre-owned equipment available for sale or finance

Financial Policy

- Lease vs. ownership analysis
- Cash flow management
- Tax advantage modeling
- Leasing options to prevent residual risk
